**To the Farmers of Eastern Shore.**

**EDITOR ENTERPRISE.**—You will pardon my seeming presumption for making a suggestion to the farmers on the Eastern Shore of Virginia. I am sure if you could see the stock of Irish potatoes that have been shipped to Baltimore you would feel the same interest that I do and freely use your influence to persuade the farmers not to ship green and unmarketable produce either to Baltimore or any other market. It is a great injury to the whole of the "Eastern Shore." In the first place it breaks down the prices. We all know when they are down it is hard to get them up. Then again, it injures the character and reputation of Eastern Shore produce. There is really no way of estimating the loss to the county of Accomac by our people rushing into market their green potatoes. If I were to give you approximately what some think, who are judges on the subject, it would astonish you and your readers. I don't believe our people can be beaten anywhere for industry and ability as farmers. They can grow the stuff, any kind they make up their minds to grow, but when they prepare it for market! To look at it makes you feel sad and sorry that labor and money should be so wasted. Putting up and preparing for market is one of the most important things. Our people don't think so, don't believe it. This part of the work is often entrusted to hands who don't know the importance of it, and if they do, they don't care. There is another reason for waiting until our produce gets ripe and fit for market. Conditions have changed from what they used to be. Potatoes are being raised from Florida to Long Island, and the railroads take them through in a short time to market. We have now got to take our turn and fall in with the seasons. After Norfolk and before Jersey and Long Island it seems to me is our only chance. Thus far the potatoes shipped from Accomac to Baltimore, would have been better if left in the ground. They were not ripe, not good, and just knocked down the market.

Yours respectfully,  
T. A. JOYNS.

**Board of Supervisors.**

The Board of Supervisors, at its meeting on the 13th inst., fixed the county taxes for the year 1895 as follows:

For county school tax 10 cents on every hundred dollars worth of property and like sum for district school tax—in each magisterial district.

It accepted the resignation of Jas. F. Hope as road surveyor of election district of Pungoteague, to take effect July 1st, and appointed Edward Lang, road surveyor for election district of Greenbackville, to fill vacancy caused by the death of Thos. B. C. Gibb.

Trader for damages by dogs to his hogs, and of Mrs. Julia A. Bull for damages by dogs to cow, which were continued until next meeting of Board.

It also entered the following order: "An allowance of \$15 each to the physicians of this county for services to the poor for the year ending July 1st, 1895, was rejected by the following votes: John W.
